21 July 1997

TO: Mr. Collin Butler
ESC/ICDL
50 Griffiss Street
Hanscom AFB, MA 01731-1619

SUBJECT: Training Certification for the Automated Message Handling System (AMHS) for Beta II Testing

1. This letter provides Training Certification to the Department of Defense Intelligence Information System Management Board (DMB) for the following migration system:

Automated Message Handling System (AMHS), v.2.3

This certification is provided for the system's Beta II testing as a component of the acquisition decision memorandum (ADM).

2. Training certification is granted, based upon a review by the General Intelligence Training System Division/DAJ-GI, on behalf of the Department of Defense General Intelligence Training Council. This certification, however, does *not* attest to the verification or validity of the program of instruction (course content). Such assessment will be made subsequently by users during internal and external evaluations by DIA, Commands, or Services.

3. Certification for the AMHS v.2.3 is predicated upon detailed documentation submitted by the PMO. Summary materials provided by the training, McDonnell-Douglas, cover critical tasks and describe learning objectives for the technical and end-users. A 2-week course upon site installation and integration into Air Force intelligence courses at Goodfellow AFB complements the Beta II testing.

4. If you have any questions, please call Mr. Robert J. (Bob) Carter, senior human resource manager (training), DIA/DAJ-GI, telephone (202)231-2807.

Robert L. De Groess
ROBERT L. De GROESS, Ph.D.
